Postdoctoral Position @ Mobile Cloud Lab

Institute of Computer Science, University of Tartu, Estonia

Posted on: 17th July 2012

Mobile & Cloud Computing Laboratory (Mobile Cloud Lab) at Institute of Computer Science, University of Tartu (UT), is inviting applications for a Postdoctoral/Researcher/Senior Researcher position for two years to undertake research in the mobile computing and/or cloud computing domains. With around 18000 students and 1400 academic staff, University of Tartu, founded in 1632, is the largest university in Estonia. UT’s Institute of Computer Science has over 400 students and is a key research partner in the Estonian Center of Excellence in Computer Science and a number of EU-funded projects.

The successful applicant for the position should have:

- A PhD degree in Computer Science
- A strong research track record and international publication record
- A strong background in building collaborative research with external partners
- Significant experience in writing grant applications and acquiring research funds
- Excellent communication skills and proficiency in English
- Inclination to take some teaching load

Please send your curriculum vitae, a statement of interest in the proposed research topics and a copy of academic transcripts, to Assoc. Prof. Dr. Satish Srirama (email: srirama@ut.ee; postal address: J. Liivi 2, Tartu 50409, ESTONIA). General information about the documents to be submitted and regulations about recruiting academic staff at University of Tartu can be found at [http://www.ut.ee/en/application-documents-and-notification-results](http://www.ut.ee/en/application-documents-and-notification-results).

Applications will be accepted until 27th August 2012. Successful applicants are preferred to start in October/November 2012, but can be negotiated. Depending on the qualifications and track record of the candidate, the gross salary can vary between 2000 - 2600€ per month, which is competitive against the sectoral salaries and the living cost in Estonia. The employment arrangement includes access to the Estonian public healthcare system.

Assoc. Prof. Dr. Satish Srirama
Head of Mobile Cloud Lab
